

Professional Truck Driving Licensure and Disclosure

Revision Date: January 2025

Welcome to Snow College's Commercial Driver's License! Snow College's provides professional driver training with both classroom theory discussion and in-vehicle hands-on training time. This course is designed to meet the Entry-Level Driver Training (ELDT) requirements set forth by the Federal Motor Carrier Administration (FMCSA) and the Utah Department of Transportation (DOT). Students will complete a range of driver competencies and become safe, comfortable, confident, law-abiding drivers. Students will become prepared to take the State of Utah driving skills tests for the Class A combination vehicle such as a tractor & trailer with air brakes.

Snow College is accredited by the Northwest Commission on Colleges and Universities (NWCCU).

If a CDL license holder moves to another state, the license holder will typically need to transfer the CDL to the new state. Usually, the CDL license holder will not need to redo testing in the new state, but there may be new CDL license transfer fees. Snow College students are advised to complete their CDL coursework and take the CDL testing here in Utah before moving to another state.

Each state has set their own standards for licensure that are independent of graduating from Snow College. States may require additional course work or professional training. Below is contact information for licensing Websites for US States and Territories. Snow College does not monitor the licensing requirements for non-US States and Territories. More information about Out-of-State Licensure can be found on the Snow College Out-of-State Licensure webpage.

This disclaimer is a good-faith effort of Snow College to help you understand licensure requirements across different states. We will do our part to regularly update this information, but it is suggested that all students become familiar with requirements in the state where they live or seek to practice. Individual states may require fingerprinting, disclosure of past criminal records, extra fees for licensure, or items not addressed in this document.

For more information about licensure, contact the Transportation Technology Department at 435-893-2215 or the Director of the Teaching and Learning Center (who serves as the NC-SARA liaison for Snow College) at 435-283-7340.
